This position will support all Sunday, Wednesday evening, Thursday evening programming and special worship services as needed. The right candidate should have experience in some combination of the following: audio engineering, video production/editing, stage lighting, live-streaming.

Hours Requirement: 20 hours/week

Salary: Competitive and commensurate with education and experience

Supervised by: Director of Technical Arts

Skills Required:

- Bachelor's degree in field preferred
- 1-3 years of experience serving in a local church or Christian organization
- Detail oriented and highly organized
- Good people skills
- Punctual and reliable
- Ability to work under pressure and meet deadlines
- Effective troubleshooter
- General knowledge and expertise in Audio, Video, Visual, & Lighting (such as IMAG, Pro-presenter and mixing vocals)
- Willingness to work under the direction of other leaders.
- Must be able to lift 50 lbs.

Job Description:

- Operate equipment as needed during worship services, rehearsals, and other programming
- Assist with tech support needs and stage setup for events in the Sanctuary, Fellowship Hall and Student Worship Center
- Respond to AVL problems and other needs as they arise
- Assist other departments maintain the working condition of their AVL equipment
- Assist the Technical Director in maintaining all AVL equipment and address problems as needed.
- Assist in maintaining and organizing in all AVL equipment closets
- Provide support and set-up for AVL needs for other ministries
- Other Duties as Assigned

The preferred schedule will be

- Sundays from 7am - as late as 7:30pm depending on the week
- Wednesday evenings 4pm - 8pm
- Thursday evenings 4pm - 8pm
- Fridays and Saturdays as needed (substituting for Wednesdays and/or Thursdays)
- There is a need for increased hours during holidays and large production events, especially in the month of December.

Responsibilities

Assist the Director of Technical Arts in running equipment and managing a team of A/V volunteers.

Qualifications

Have a strong knowledge and 3-5 years of experience with either Sound Engineering, Video Production and/or Live Broadcasting. Experience with a lift or working on a catwalk is a plus. Be able to lift 40-50 pounds safely. Have a growing relationship with Jesus Christ and a commitment to serving His church.
